Meetings and Events Attended/Hosted

Date	Organization/Event Name	Discussion Topics	Primary Contact Info for Organization/Group
9/22	Student Focus Group	College of Social Work	bssw@osu.edu

Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

Since becoming the representative senator for the College of Social Work, I have made an effort to ensure that the views of the students in the College of Social Work are represented in the Senate. I have also made it a priority to talk to both professors and students about how the College of Social Work can improve its program. The overwhelming consensus from both students and professors is that there needs to be an overhaul of the senior internship experience (field placement) and that this experience should be paid or that there should be some

General Assembly Constituency Report 1

form of compensation for students doing this experience. I have made sure to reach out to groups within the college and professors who are working on this issue to ensure that the views and needs of students are being represented in the senate.

I have attended one of the College of Social Work focus group meetings and made an effort to talk to students in Stillman Hall in order to ask what they think may be a good idea for improvement, however the College of Social Work is very progressive and there are very few issues that have been identified that are specific to the college. I have also made an attempt to make myself accessible to students so that they know that they can reach out to me and that they are aware of my existence.
