Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

Although I have yet to write legislation, I have been trying to gain a solid understanding of how General Assembly procedures work and how they enable me to make a change on campus. I have also been in contact with University Administrators, Faculty, and Staff to discuss solutions to the issues brought up by students of my constituency. I have made myself available via office hours, personal appointments, and emails. I have attended Fisher-specific club meetings to make my presence known to my constituency.
