General Assembly Constituency Report 1

Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

I regularly engage in conversations with other off-campus students to understand what issues are affecting them and how I can help create solutions for them and the issues they bring up. I am actively working with administrators and members of GA to create changes and policy that will help students specifically with kosher and halal food on campus (which benefits on and off campus students) and with expanding religious accommodations and accessibility to them.
