Date	Organization/Event Name	Discussion Topics	Primary Contact Info for Organization/Group
10/24	Career	-mental health	
/2023	Exploration/Readiness	-career exploration -GE requirements for pre-professionals	

Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

I have met with many students around campus some of whom are in various scholar's programs. From these talks I've discussed ways the mathematics and science departments could better support the

mental health needs of students. As well, have explored the unique challenges that many students face while taking hard course loads and trying to balance life. Along with that I have learned of many prerequisites and GE requirements that students in these major's feel are useless or doesn't aid in making them well rounded. From these various talks I want to help change these requirements for certain mathematics and science majors. Additionally, I want to implement resolutions that call on the university to put more funding toward innovative programs and collaborate with student life for more programs/socials exclusively for STEM majors.
