Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

General Assembly Constituency Report 1

Over the past few months, I have talked to many of my classmates, peers and, faculty about the issues that the Fisher College of Business faces, as well as general issues. I will continue to do this, and will soon reach out to student organizations like SCNO, and Buckeye Ventures for further ideas.

Within the chamber, I am part of the Allocations Committee, where we allocate funding to student organizations for events, competitions, and travel. If you have any questions regarding funding and applications, do not hesitate to reach out. Furthermore, I am working with the Justice and Equity Committee regarding a resolution to ask to university to support and use ethical vendors. In addition, in collaboration with other Senators, we have launched a task force concerning the current food options in dining halls, and the opportunities to add more cultural options. If you have any further for me to pursue ideas, please reach out!
