

Sarah Schmidt

Speaker

2094B Ohio Union

1739 N. High Street

schmidt.1318@osu.edu

**56th General Assembly
Steering Committee**

Spring 2024, Session 21

March 17th, 2024

I. Opening

- a. Call to Order

7:00pm

- b. Attendance

8/9 members present

- c. Approval of Minutes

Approved

II. Updates

- a. *Speaker Sarah Schmidt*

Transition meeting next week, the 27th, will be the meeting where we invite our newly elected senators. During that meeting I ask that all of the LC's will just give an overview of your role and what your committee does so that the new senators can try to get an idea of what they might be interested in.

Transition documents due before Steering on the 24th

Committee meetings should have taken place, if you have not done so, make sure you do it by the 20th. I want good quality updates at the next meeting.

Feedback on motions?

Zoom link was owned by previous speaker, so we had to make a new one

b. Parliamentarian Keyanah Peters

No updates

c. Secretary Mykenna Roy

I'm still waiting for a couple of constituency reports, so please send a message in your committee group chats that remind everyone to send their constituency reports in to the Secretary.

I plan to add something to the agenda. I don't know if you just got that e-mail, but it's former Senator Walkup's anti-Doxxing resolution. Unfortunately, since she resigned, the resolution wasn't able to officially pass the committees that it went through, which were health and safety where it was adjusted and then sent to student affairs.

I motion to add A resolution to improve university anti-doxxing protocols to the agenda.

Motion passes unanimously

III. Business

a. 56-R-34: A Resolution to Reestablish Transportation for Students to The Ohio State University Airport

- Bernard: 150 students have no public transportation to the OSU airport, yet there used to be transportation. This resolution advocates to bring it back.
- Q: Price: We cannot make amendments, right?
- A: Schmidt: on the floor, we can

Vaishampayan: I would like to hear Price's proposed resolution

Price: I wanted to ask about the 24/7 CABS on Demand bus stop at the OSU airport and whether they previously did it with an hourly bus stop

Passes unanimously

b. 56-R-35: A Resolution to Improve University Anti-Doxxing Protocols

Roy: So this was Senator Walkup's resolution on behalf of Black Caucus and health and safety. They wanted to push a resolution to denounce doxxing on behalf of USG and to

support the expansion of legal counsel, cybersecurity, education, and student counseling resources regarding instances of doxing. I am presenting this on her behalf, I did

Q: Price: Can you break down the specific issue with doxxing and Ohio State?

A: Roy: Within the resolution it talks about how there have been instances of undergraduate students who have gotten their addresses and phone numbers leaked, and they've received threatening phone calls and stuff like that, and the university does not currently have anti doxxing protocols and resources for those victims. The resolution is trying to bring awareness to that and to push the university to have resources available to their students.

Resolution passes with 7-0-1

IV. Announcements

Schmidt: Price is sitting in as temp LC so Academic Affairs can have their meeting, but the election will still need to be held. Oversight vacancy is still open, election will take place. Bernard pulled his resolution on changing the bylaws. We are prepping for a potential crowd on Wednesday, I don't know if that will happen for sure. If anyone has any idea when the results for the election are going to come out, can you please let me know? I am trying to plan for transition.

V. Adjournment

7:20pm
