Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

Since being able to reach out to my constituents directly through events is difficult due to COVID restrictions, my goal is to listen to issues that my constituents may be facing that may be brought up in various ways. For example, an issue I have noticed is with the lack of hygiene products at front desks, specifically menstrual hygiene products and bandages. Ultimately, my goal is to create a more personal connection with people in my constituency and envelop myself within the community so I can better understand issues any of us may be facing.
