Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

While I have not yet held a constituency event, I have contacts in some of the largest student organizations on campus that I plan on utilizing in order to field legislation suggestions as well as make myself known to any off-campus students in those organizations. Because of COVID my face-to-face plans have been impacted, but I am planning on reaching as many off-campus students as possible.
