Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

While I sadly have not been able to host any constituency events to form better bonds as a result of the ongoing pandemic, I have worked to help support the students in my constituency and their voices through policy and projects. I have worked on a mental health legislation and co-sponsored it to get a mental health statement added to all syllabi. Aside from co-sponsoring, I have also worked on the Prison Labor Legislation which arose as a result of the horrible conditions that OSU supports through allowing prison labor to be a source of 'employment' that they condone. I have also worked on a mental health task force to improve the SLDS relationship with its students, and professor's ways of handling SLDS.
