Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

Since being elected, I have tried to represent the student voice as much as possible. However, it has been a little difficult due to all the restrictions surrounding COVID-19. Due to this, I have been unable to host or attend any constituency events. However, I hope to find a meaningful way to connect with my constituents as soon as possible. Representing the Off-Campus Living Area has been a little daunting, because my constituency is extremely large and diverse, and I have not found the best way to connect and receive feedback from my constituents. I hope to collaborate with the other Off-Campus Senators to find a way to engage with our constituents. Aside from this, I was one of the co-sponsors for 53-R-10 and I am also co-sponsoring a piece of legislation to

condemn Ohio State's use of prison labor for their zero-waste program. The latter piece of legislation was inspired directly by student's demands after the creation of a Change.org petition. Lastly, I am the primary sponsor of a piece of legislation surrounding how to make academics more accessible in the era of COVID-19. We are only in the beginning phases of this legislation, but we will be sending out a Qualtrics survey to the student body to gather data and feedback.
