Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

Although I have not held any traditional constituency events due to COVID-19 restrictions, I have been in close contact with many students within my constituency in both my multiple art classes, as well as art and humanities related clubs, such as Film and Video Society. In my classes, I have seen first hand how the pandemic has impacted art classes. As a Moving Image Production major, I personally have a decent set of equipment at my disposal that I have bought over the years, but not everybody has the money to purchase such equipment. This becomes complicated when a class requires making films or videos. The University does provide equipment for checkout, but COVID-19 has exposed the shakiness of that system. I am sure this applies to more than just filmmaking art classes. Furthermore, in my clubs, I see the concerns of art and humanities students on a more casual, personal level. In both of these capacities, I will continue to evaluate the needs of my constituency, and look into what can be done to improve access to resources for the arts.
