## General Assembly Constituency Report 2

Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

*I have continued to reach out to my constituents in order to ensure that they know what resources USG has available to them and that their opinions matter. I have not just voted in favor of resolutions that would benefit my constituents, but I have also asked sponsors and co-sponsors to clarify their implementation plans so as to ensure that they have a clear path forward. I have also asked sponsors of passed resolutions for updates on their progress and will be relaying that information to interested constituents. I have also been working with faculty in the Office of the CIO on a project involving mental health awareness.*
