Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

I have reached out to other students who live off-campus and discussed issues they feel are pressing in regards to off-campus living. I am currently working with the off-campus lighting task force to hopefully improve the lighting off-campus, as that is an issue a lot of students have expressed to me. Hopefully in the future I will be able to work with other off-campus senators to hold a constituency event to reach out to more of our constituents and see what other policy we can be working on to get passed in General Assembly.
