Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

After being elected to represent Fisher I have made an effort to get to know my constituents so that I can accurately represent them. I have achieved a more comprehensive understanding of their stance on certain issues and their general priorities in regards to the direction this university takes.

I have a gained a more all-encompassing perspective by informally polling people in my business classes as well as consulting with a number of athletes who tend to major in business. This has diversified the population I have been able to get feedback from. I try to get feedback from people frequently and ask specifically about legislation that is supposed to be passed in the coming GA meeting. This was especially important in cases

that are controversial like the issues with window art. After consulting with people in Fisher I was confident in how to vote.
