Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

At the GA session in front of the RPAC as well as in a few of my fashion classes, I have been able to get a good beginning consensus of how my constituents are feeling. A few voiced the opinion that they didn't feel very connected between the education versus human ecology students. Some fashion students voiced concerns of why the major is even under the EHE umbrella. There were also concerns from fashion students about the lack of studios on campus for fashion (rooms with resources such as sewing machines and mannequins). I am beginning to get some more information on what the education students are concerned about by setting up an opinion box.
