9/20/17	Spoke at Humanitarian Engineering Scholars 2nd year Meeting	Outreach, Introduction	Rachel Tuttle.146 (Program manager, Humanitarian Engineering Scholars)

General Assembly Constituency Report 1

Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

I've been putting in a tremendous effort to reach out to my constituents in order to understand their needs, opinions, thoughts, and to introduce myself and educate them on what USG is, what we do, and how they can get involved or reach out to us. So far I have had a few people reach out to me about opportunities USG offers such as student org funding. I try my best to represent what I believe the majority of my constituents' thoughts, opinions, and needs are whenever I'm in the chamber. Nothing very controversial has come up in the chamber up to this point, but if something does I will ensure that I am able to somewhat survey my constituents and reflect their views with my actions in the chamber.
