Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

My main goal as a senator is to focus on the safety and sustainability of the off-campus living area. As off-campus senator it is hard to reach all of my constituents since they are such a large portion of the student body; however, I have had the opportunity to talk to many of my friends who live off-campus. One of their main concerns was the lack of lighting and how it pertains to their safety when walking home late at night. Currently, I am working on a project with the Student Affairs committee representatives to increase the amount of lighting on streets off-campus that run west to east.
