*Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?*

## *General Assembly Constituency Report 1*

I have been in contact with my south campus constituents and getting a feel for areas of improvement. There are many that feel the busing system is not very convenient, especially at night. This is a big safety concern because walking from the libraries back to campus there should more forms of accessible and quick transportation. I plan to work with the CABS program and student safety to help resolve this issue.

I have made connections with various African organizations on campus through African Unity Week and will be continuing to use these resources to help facilitate diversity conversations under the Diversity and Inclusion Committee.
