Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

Although, I was unable to attend the outreach event at the RPAC, I have been able to reach out to my constituents on Medical campus. I talked to some students about concerns with the construction over on the Medical campus and some raised concerns about the bus systems. I was going to look into any differences in the routes due to constructions and talk to them again.
