*Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?*

As a member of the Sustainability Committee, I am hoping to implement, and currently writing resolutions for, projects with the help of my committee, not only on-campus but in off-campus areas, in order to benefit the Ohio State & Columbus community at large (i.e. “ban the bottle” resolution). I have reached out to constituents through social media, talked to classmates and acquaintances, and will be attending the off-campus living exposition this week in order to meet with constituents and learn of their concerns. I also hope to host events alongside other off-campus senators later this year in order to reach out to even more students.
