Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

Although I have not facilitated any major events to reach out to my constituents this semester, I still have been talking with various students in different organizations to get the word out on what USG is and what its affect on campus is. I feel that this university is so large and USG is unable to keep up with the size of the student body, so just mentioning what we do goes a long way. I emphasize how our past accomplishments have had solid effects on the student body, and university as a whole, and then go into detail on how to get more involved. I have met with various members of my sorority that are interested in USG and GA, and explained what exactly our mission and responsibilities are. All this is beneficial to representing the student body, because before anyone can voice their opinion to an organization, they have to understand what exactly

this org can do for them. Without knowing the types of problems we are able to solve, they will never feel comfortable addressing them to our GA.
