10/2/17	Personal SBS Outreach	Between my classes in the psychology building I spoke with a few students who are psychology majors as well. We discussed their career concerns in the future and what they feel would better help prepare them for their jobs searches.	
10/30/17		I met with a Social Psychology instructor to gain a better understanding of how much social influences can impact our decision making and the kind of environment that is created and promoted at Ohio State. This was productive because we were able to critically analyze what we like and what we would consider changing at Ohio State.	Jonathan Stahl

*Since being elected to be part of the General Assembly, what have you done*

*to represent the student voice in the chamber and in other relevant circumstances?*

Throughout these past few sessions we have had some debated topics that really bring in perspectives from various viewpoints across campus. It has been my mission to ensure that voices get heard, discussions are held in a manner where it does not become a debate of persons but instead a debate of ideology. I believe that my constituents want to see a productive and empathetic student government and I work each time to ensure that I am trying to express my viewpoint while keeping an open mind to understanding others'.
