General Assembly Constituency Report 2

Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

I have continued to get my, and the other Engineering Senators names on students minds and in students contact books. Each General Assembly is prepared for through inspection of the agenda and when time permits discussed with fellow engineering constituents in order to accurately represent the students from the College of Engineering. During this time I have also co-sponsored and pushed resolutions such as the Mental Health Message Box on carmer. I have been in the background of the Window Art Ban resolution as we continue forward to next steps with housing after the passed legislation.
