Since being elected to be part of the General Assembly, what have you done to represent the student voice in the chamber and in other relevant circumstances?

I have co-sponsored several pieces of legislation that impacted students and faculty, voiced my opinions in GA in regards to resolutions that would directly affect my constituency, as well as begun the planning of a constituency event with the other Senators for SBS. I also have three resolutions that are in the beginning stages that I plan on bringing to the floor before the semester is over. I am conducting surveys to ensure that they will be what my constituency wants, as well as to ensure that they will benefit my constituency. Finally, when there have been vacancies within General Assembly, I have reached out to individuals that I believed would be good fits in GA, and encouraged them to apply.
