

GA Member: Michael Frank

Constituency: Off-Campus Senator

Constituency Report 1 49th General Assembly

So far this semester, I have worked on many mental health related items. First, the General Assembly heard a resolution that support the creation of an endowment fund for the Student Wellness Center, which provides a holistic approach to overall wellbeing. Look at swc.osu.edu for more info and how to schedule. Second, the GA approved a resolution that supported the inclusion of a mental health statement on course syllabi, similar to the academic misconduct and Office of Disability Services statements. It is my hope that this upcoming semester professor will be encouraged to include this statement in order to make students more aware of our campus resources to treat mental health. In addition to mental health, off-campus safety has been another key issue for me. The Health & Safety Committee will again distribute off-campus safety packs. This pack includes items like window/door alarms, nightlights, and the like. In the near future, the Off-Campus Senators will be doing a constituency event, so please stay tuned!

For more information, please email me at frank.457@osu.edu!

Meetings and Events Attended/Hosted

Organization/Event Name: Dean's Student Advisory Board

- Date: September 12, 2016
- Topics of Discussion: GE Requirements, Syllabi Information, Credit Hours
- Primary Contact Info: Myself
