## Constituency Report 1 49th General Assembly

Up until this point, as a senator I've talked to lots of people in Torres (my residence hall), which houses Green Engineering Scholars, Humanitarian Engineering Scholars, and Women in Engineering, about my position and what I do. I've gotten lots of input on potential new resolutions about professors and female equality in the STEM fields. Aside from that I am planning a constituency meeting/town hall in the ThinkTank of Torres to get another constituency event under my belt and also to get even more input from those that I haven't reached yet.
