

GA Member: Nick Prayner

Constituency: Off-Campus

## Constituency Report 1 49th General Assembly

Lately, I have had the pleasure of hearing from various off-campus students in regards to their concerns with the construction for the 15th and High Project and how it'll affect walking routes as well as the lighting of off-campus streets. I plan to continue to meet with my constituency through both planned events and any opportunities to speak with off-campus classmates regarding their concerns. I look to work with Health & Safety to construct smart resolutions to advocate and ensure all areas of off-campus are as safe as possible.
