Constituency Report 1 49th General Assembly

So far my efforts have been aimed at meeting with my constituents and asking them for insight into legislation that I could help them write and pass in GA. So far I have emailed the Arab Student Union, Jewish Student Union, the African American Student Union, Asian and Korean groups. So far, none have reciprocated that effort, but I am trying to be more available to them.

Recently I and a few other senators are planning on creating an event where Arab and Jewish students can better educate themselves on issues in the Middle East. I think that this event coincides with constituency and it will be an even better method for me to make contact.

Next I plan to work on more academic issues and speak with students about their advising issues and textbook affordability.
