

GA Member: Rachel Williams

Constituency: Social and Behavioral Sciences

Constituency Report 1 49th General Assembly

During my first month as a senator, I have been focusing on brainstorming and researching potential resolutions. In affiliation with my committee, Sustainability, I am working on a 'sustainable student' education resolution, and I am partnering with Senator Garcia on a CEMP resolution and farmers market resolution. Outside of my committee, I have been looking into faculty control over preparing class material as a way to reduce costs for students, and I have been looking into increasing the visibility of the food pantry on campus. I have voted yes to support both increased accessibility of SEIs and to increase the maximum tuition credit to 21.
