Constituency Report 1 49th General Assembly

So far as a senator of the College of Education and Human Ecology, I have begun to become aware of problems that all students, more specifically the students of EHE might have and ways that USG can become involved to fix them. The College of Education and Human Ecology has a mix of all majors, ranging from exercise science and sports industry to fashion studies and education administration. Because of this wide range of majors, students in my constituency are involved in a lot of different ways on campus and thus have many different problems and suggestions. Before being able to fix and write resolutions on behalf of the students, I have first begun to be aware of what students want from their Undergraduate Student Government. I have already voted in General Assembly in favor of the resolutions that have been brought to the floor; all of which I believe will make a positive change in the student body of The Ohio State University.
